

Fiber Internet Service Agreement Terms and Conditions

NOW COMES, GTech Fiber, L.L.C., hereinafter referred to as GTech Fiber, and, the customer hereinafter referred to as "Customer" or "You", hereby contract and agree as follows:

SECTION I. Terms and Conditions

ACCEPTANCE OF THIS AGREEMENT

By signing this Agreement or by utilizing GTech Fiber Services, the Customer acknowledges having read and understood this agreement and Customer accepts this Agreement (together with all of the policies attached hereto) and agrees to abide by its terms and conditions as they may be amended from time to time. Please take the time to read this Agreement carefully. The terms and conditions of this Agreement may be amended from time to time by GTech Fiber by providing notice of changes in the GTech Fiber monthly billing statements. Use of the GTech Fiber Services by Customer after a change to these terms and conditions has been so noticed by GTech Fiber, shall constitute acceptance by Customer of such changed terms. If Customer does not wish to accept such changes, the only remedy is to terminate the GTech Fiber Service that GTech Fiber is providing under this Agreement within thirty (30) calendar days of the date the change was noticed by GTech Fiber.

SCOPE OF SERVICES

For purposes of this Agreement, "Service", "Services" or "Broadband Services" means the service provided by GTech Fiber that allows you to access the Internet and offers you a capability for acquiring or retrieving information, generating, storing, transforming, processing, or utilizing information on, or making available information to other Internet endpoints connected directly or indirectly to, the GTech Fiber network. Service or Broadband Services include fiber-based Internet services. By using or paying for the Service, you are agreeing to the terms and conditions in this Agreement.

NO RESALE

Customers may not resell Service without a legal and written agency agreement with GTech Fiber.

Customers may not retransmit the Service or make the Service available to anyone outside the premises (i.e., by Wi-Fi or other methods of networking). Customers shall not use the Service to host any type of commercial server.

INSTALLATION, FEES AND ACCESS

GTech Fiber or its agent or contractor will schedule one or more installation visits with Customer. GTech Fiber agrees to cover the first \$2,500.00 towards the installation of fiber-optic Internet service. Any additional installation charges above and beyond the \$2,500.00 covered by GTech Fiber must be agreed to by the Customer before installation is initiated and must be paid in order to complete service installation. Any such charges will be clearly conveyed by GTech Fiber before installation. Customer must be present at Customer's service location during the installation to be performed by GTech Fiber, its agent or contractor. After installation, and during the term of this Agreement, Customer shall provide GTech Fiber with reasonable access to Customer's site to inspect, repair and maintain GTech Fiber's customer premises equipment. Upon termination or expiration of this Agreement or disconnection of the GTech Fiber Service, Customer shall be obligated to return any Equipment to GTech Fiber or to provide GTech Fiber with access to the site to recover such Equipment, if it was provided to Customer by GTech Fiber. Customer agrees GTech Fiber may visit the site upon termination or expiration of this Agreement or disconnection of the GTech Fiber Service to recover its Equipment. GTech Fiber will not restore or reconfigure Customer's equipment or after de-installation, and Customer agrees that GTech Fiber is not responsible for doing so. For underground installations, GTech Fiber will directly bury the fiber from the nearest pole or pedestal to the foundation of the customer's home. GTech Fiber will attempt to cover the trench with dirt and existing sod, but GTech Fiber is not responsible for raking,

seeding, restoration of sod or further repairing any area impacted by the underground fiber installation. If necessary to provide for the most efficient installation, GTech Fiber can saw through stone, concrete or asphalt and is not responsible for any damages that may result. If the underground fiber is damaged after the initial installation and requires replacement or repair, these costs will be billed to the customer.

EQUIPMENT

GTech Fiber will provide the Customer with a fiber-optic wireless router. Such equipment shall at all times remain the property of the GTech Fiber and upon termination of service shall be returned to GTech Fiber within seven days of notice of termination in the same condition as existed upon execution of this agreement, reasonable wear and tear excepted. Customer shall bear all risk of loss, theft, fire, windstorm, lightning, or other hazard. GTech Fiber will maintain and repair such equipment at its sole cost, provided however, that in the event that any such maintenance, repair or replacement is necessitated by acts of abuse, misuse or neglect by the Customer, or any of the hazards identified above, Customer shall bear the entire cost of such repair or replacement. ***The replacement cost of damaged equipment or equipment not returned to GTech Fiber in good and working condition upon termination of this agreement is hereby set at \$250 and must be paid within 30 days of service termination.***

TERMS AND TERMINATION

(a) Contract Terms. The term of this Agreement commences upon the initial installation or activation of any Service and shall continue in full force and effect as long as the Customer is receiving GTech Fiber Internet service at their location.

(b) Termination by GTech Fiber. GTech Fiber reserves the right, in its complete discretion and for any reason or no reason at all, to suspend or terminate this Agreement and to disconnect the Customer Fiber Service, in whole or in part, at any time, upon thirty (30) days of prior notice to Customer. Customer shall pay to GTech Fiber, immediately upon demand, all sums then due and unpaid at the time of termination.

(c) Termination by Customer. Customer may terminate Customer's GTech Fiber Service at any time by calling (573) 759-7146. Cancellation will take effect as of the date on which GTech Fiber schedules and completes the disconnection of Customer's GTech Fiber Service. Customer may be charged for a partial month of service if cancellation takes place in the middle of a billing cycle. Customer shall pay to GTech Fiber, immediately upon demand, all sums then due and unpaid at the time of termination. Notwithstanding the foregoing and anything else to the contrary contained in this Agreement, where GTech Fiber must build fiber or facilities (e.g., obtain space and/or deploy equipment) to provide service to customer, customer's Agreement for service in connection with the build shall not be subject to cancellation once submitted to and accepted by GTech Fiber. Customer's sole remedy against GTech Fiber in the event of dispute arising out of or related to this Agreement or Equipment supplied by GTech Fiber, or the GTech Fiber Service or Customer's use thereof, is to terminate this Agreement and pay the remaining charges due up to the date of termination.

(d) Return of Equipment. Within fifteen (15) calendar days after termination or expiration of this Agreement or disconnection of Customer's GTech Fiber Service, Customer shall be obligated to return any Equipment supplied and owned by GTech Fiber to GTech Fiber in good and working condition or ***Customer will be charged \$250 for equipment replacement.***

RATES AND CHARGES

The rates and charges for the Services are set forth in the Agreement, together with any and all of GTech Fiber's tariffs, as applicable and as amended from time to time. With respect to any Service provided by GTech Fiber to Customer for which a rate is not specified in the Rate Schedule, GTech Fiber's standard retail rates shall apply. GTech Fiber shall provide Customer with a current rate schedule for its standard retail rates at time of service activation from time to time and at the request of Customer. Customer shall make all payments when due as set forth herein.

TAXES AND SURCHARGES

In addition to the rates and charges for the Service(s), Customer shall be responsible for payment of all local, state and federal taxes, fees and surcharges, however designated, imposed on or based upon the provision, sale, or use of the Services and any Equipment, excluding taxes based on GTech Fiber's net income. Customer shall be responsible for the payment of all surcharges in effect from time to time, including but not limited to USF, PICC, and payphone surcharges, as required or permitted by applicable law, regulation or tariff and/or as specified on the GTech Fiber website at www.mygtechfiber.com.

Customer hereby consents to the exclusive jurisdiction of and venue in the state courts located in Pulaski County, Missouri. No legal action or claim of any kind or nature arising out of this Agreement or out of any use of the GTech Fiber Services by Customer may be brought by a party more than one year after the date on which the cause of action first arises.

CUSTOMER'S OBLIGATIONS - Payment, Fees and Installation

(i) Installation Fee and Monthly Charges for GTech Fiber Service. The Customer is obligated to pay the installation fee (if applicable) and monthly charges for the GTech Fiber Service as such charges may be determined from time to time by GTech Fiber in its discretion upon reasonable notice to Customer. Customer is required to pay and Customer agrees to pay all monthly charges one month in advance.

(ii) Cancellation of GTech Fiber Service. If Customer cancels the GTech Fiber Service for any reason, GTech Fiber will not be required to refund to Customer any portion of the installation fee paid by Customer upon service initiation if a fee was required above and beyond the \$2,500.00 covered by GTech Fiber for installation. GTech Fiber will not be required to refund any portion of monthly fees paid by the Customer. GTech Fiber will also not be required to remove any wiring or equipment other than the Internet router from the customer premises.

(iii) Failure to pay. If Customer fails to pay the monthly charges after notification of delinquency within thirty (30) calendar days of the due date, GTech Fiber may impose a late fee charge amount equal to 1.5% of the unpaid balance due and/or disconnect the GTech Fiber Service at its discretion. GTech Fiber may also charge a service fee for all returned checks and debit card or credit card chargebacks, and Customer agrees to pay GTech Fiber for such fees.

(iv) Re-connect and re-installation fee. If Customer disconnects the GTech Fiber Service, request that the GTech Fiber Service be disconnected or if Customer's GTech Fiber Service is disconnected due to nonpayment or other breach of this Agreement, and if GTech Fiber agrees to reconnect the GTech Fiber Service, Customer may be charged fees for reconnecting and reinstalling the GTech Fiber Service and Customer agrees to pay GTech Fiber for such fees. Customer may not request temporary disconnection and reconnection more than one time in a 12-month period. Temporary disconnection may not be for a period of less than 30 days.

(v) Charges for other services or goods. From time to time, Customer may decide to select additional services or purchase goods offered by GTech Fiber. (vii) Installation of fiber equipment. By signing this form, you are granting GTech Fiber and its professional installer permission to install your new fiber optic Internet service at the service address indicated below. This signed installation permission agreement releases GTech Fiber (including any contracted installation technician) from any liability related to damages that may be claimed as a result of the installation of your new fiber optic service. This installation could include, but is not limited to, the following:

- Drilling an entry hole
- Tacking cable on the outside of the house or building
- Mounting a small fiber splice box on the outside of the house or building
- Attaching a service drop to the house or building
- Tacking cable inside the house or building

(viii) Additional customer responsibilities. In addition to all other Customer responsibilities as set forth in the Agreement, Customer shall be responsible for providing the following: (i) broadband Internet connectivity; (ii) all equipment, software, facilities and/or Internet Protocol ("IP") connectivity necessary to reach and interoperate with the Service and the GTech Fiber network; and (iii) all other equipment, software and other facilities to be installed, including without limitation, routers, IP enabled phones and/or an analog terminal adapters.

UNAUTHORIZED USE OF SERVICES

GTech Fiber shall have the right (but not the obligation) to take protective action against Customer in order to protect GTech Fiber's network from any unauthorized use, which protective action may include, without limitation, the temporary blocking of Customer's traffic until the applicable problem is resolved (in GTech Fiber's reasonable discretion). The Service does not support and GTech Fiber will not accept 976/900 and such other call types in which charges are placed on an end-users bill and GTech Fiber might be expected to act as a collection agent. Use of predictive dialers for more than five percent (5%) of all calls made is prohibited except with GTech Fiber's written consent.

SERVICE SPEED AND AVAILABILITY

The Broadband Service speeds identified in GTech Fiber's marketing materials and other communications with you reflect Service capability speeds in Service speed tiers. The Service tiers are usually denoted by a name, and by a number that identifies the high-end of that Service tier's speed range -- commonly referred to as "Up to" the noted speed. The high-end of the speed range in a Service tier represents the potential maximum speed capability in that Service tier, but is not a statement or guarantee of the maximum speed you will receive. Some applications such as a short email without attachments or basic Web browsing do not require high speed service capability to function optimally, while other activities such as transferring large data files or streaming video can be performed faster with higher speed services.

Bandwidth is provided on a per-line (not a per-device) basis. The maximum speed you will receive will depend on a multitude of factors, including, among other things: the equipment in use and number of other users/devices on your local network; and the capacity or performance of your computer or device. Furthermore, the speed you receive at a point in time may vary and may be less than your maximum speed, depending on, among other things, the composition of the information or files you are accessing, other traffic on your network, other traffic on your device, traffic on the Internet, the server with which you are communicating, and the networks you and others are using when communicating. GTech Fiber makes no promise or warranty, express or implied, that you will be able to download or upload data at any particular speed. If you are dissatisfied with the speed of Service you are receiving, you must contact GTech Fiber customer service at (573) 759-7146.

FORCE MAJEURE / LIMITATION OF LIABILITY

GTech Fiber shall not be held liable for any delay or failure in performance of any part of this Agreement from any cause beyond its reasonable control and/or without its fault or negligence, including, without limitation, acts of God, acts of civil or military authority, governmental laws, rules or regulations, labor disputes, embargoes, epidemics, pandemics, war, terrorist acts, riots, insurrections, fires, explosions, earthquakes, nuclear accidents, floods, strikes of party or its affiliates, power blackouts, volcanic actions, other major environmental disturbances, unusually severe weather conditions, such as thunderstorms, snowstorms, ice storms, tornadoes, hurricanes, earthquakes, etc..

Customer expressly understands and agrees that the GTech Fiber Service or Equipment provided by GTech Fiber is not guaranteed to be error free, uninterrupted, secure or always available. Customer expressly understands and agrees that the use of the GTech Fiber Service and any Equipment provided by GTech Fiber is at Customer's sole risk. Subject to the foregoing, Customer expressly understands and agrees that GTech Fiber's maximum liability to Customer under this Agreement or arising out of or related to the GTech Fiber Service will be the lower of the aggregate amount Customer has actually paid to GTech Fiber, or Customer's actual damages, but in no event shall exceed \$500.00. Customer expressly acknowledges and agrees that GTech Fiber has set its pricing for the GTech Fiber Service and entered into this Agreement in reliance upon the limitations of liability set forth herein and that the same form an essential basis of the bargain between the parties.
